To: Chen, Si <SCHEN@wcupa.edu>

Hey Si!

I'm not sure if you remember me but it's Matt Frazier, your former student and Graduate Assistant from Fall 2017. There's a picture of myself below in case that might help refresh your memory.

I've been meaning to send this email much sooner or to stop by your office hours but was unable to find the right time. I wanted to write this email to send my deepest, warmest, most heartfelt personal THANK YOU! My life has changed so much since I graduated from WCU and I know that your help, mentorship, and positive influence on my life was a direct result from all of it.

For starters, I want to thank you for your help in writing my recommendations for graduate school. I definitely do not take that for grant it! I was offer admission into the University of Delaware's Ph.D. in Computer and Information Science program. I am currently starting the program this Fall 2018 and am really excited and looking forward to the research opportunities it will bring. Also, I received my first computer engineering related job and am currently an Operations Engineer position.

Again, I truly appreciate your influence and supporting me. THANK YOU SO MUCH AGAIN!! Please keep in touch! 😊

Best regards,

**Matthew Frazier**
